Chris,  
No, I haven't heard from Mr. Herricks regarding use of the landfill.

## Ex. 5 Deliberative Process (DP)

Larry/Tom,

Good afternoon. Have you guys personally been in contact with the Herricks? Do you have any information on the nature of their interest, i.e., purchase, rental, etc.?

## Ex. 5 Deliberative Process (DP)

I can respond to the Herricks, but I wanted to reach out to you two first.

Thanks – Chris

**Subject:** 355 Clouser Rd, Hanover PA - Possible Land Application Site

Good Afternoon!

We recently have been in touch with Thomas Sweeney at Pennsylvania Department of Environmental Protection in regards to the property located at 355 Clouser Rd, Hanover PA (Former Keystone Land Fill). He had forwarded your contact information to us.

We are inquiring about the possibility of using this site for a residential septage land application site following the requirements set forth by DEP for land application as well as the EPA Part 503 Rule. This 69 acre parcel has parts of it currently being farmed for hay. There is also substantial acreage surrounding this parcel that is being farmed as well making this site ideal for a base of operations for a land application site. The property is also fenced in with 8' high fences.

We look forward to hearing your input on the requirements and possibility of moving forward with the land application.

Thank You,

Sean & Laurel Herrick
